BOY SCOUTS MAKE FLY-KILL RECORD

(Continued from First Page)

Visited and the scholars made familiar with the fight which the health authorities are waging for the extermination of the pest.

A strong effort is being made to enlist the school spirit of the public school children in this fly contest, and many of the teachers are organizing their classes into fly-swapping clubs and entering The Times-Dispatch contest. There is a splendid opportunity for success before the class which takes serious hold on this scheme, and if the public schools do become interested in the contest the warmest possible race will ensue.

In connection with this contest and the educational campaign, the Health Department is placing at strategic points throughout the city fly exhibits, showing the actual breeding of the pest and giving pointers in regard to their extermination.

Hendricks-Harrison.
Gordonsville, Va., June 6.—Palms and ferns decorated the Providence Episcopal Church, Louisa county, yesterday afternoon at 2:30 o'clock, when Miss Eleanor Callis Harrison, daughter of Mr. and Mrs. George F. Harrison, became the bride of John Campbell Hendricks, of Carlisle, Orange county. Rev. Mr. Turner, rector of the church, performed the ceremony. Mrs. Mooten played the wedding march. The bride entered the church with her father, who gave her away. Her gown was gray panama with hat and gloves the same shade. Miss Victoria McCoy attended the bride as maid of honor. R. G. Cowherd was best man. Miss McCoy and the bridesmaids wore lingerie gowns, with green messianic sashes and carried white carnations. The ushers were Herndon Cowherd, R. Beverley Goodloe, Henry Holman and Dr. Heart. Mr. and Mrs. Hendricks left immediately after the ceremony for a wedding journey North. They will be at home after June 8, "Carlisle," Gordonsville. Providence is the oldest church in Louisa county. It was built before the Revolution, but in all these years only two marriages have been celebrated within its portals. Mr. and Mrs. Hendricks' marriage being the second.

HIGH HONOR FOR SWANSON

SENATOR CLAUDE SWANSON.

(Special to The Times-Dispatch.)
Washington, June 6.—Senator Claude Swanson has just been elected president of the board of visitors of the United States Naval Academy. Tomorrow he will go to Annapolis and make the annual address before the graduating class of cadets.

PICTURES SHOW WHY YOU MUST SWAT FLY

Actuated by a desire to assist The Times-Dispatch and the health authorities of the city in their warfare against that pernicious pest, the fly, the management of the Bijou Theatre threw open its doors yesterday afternoon at 5:30 o'clock to all State and city officials, public and private school teachers, and physicians, in order to exhibit to them an almost living demonstration of the disease-carrying activities of the insect which has, until very recently, been considered quite harmless, if somewhat annoying.

After a reel of rare and beautiful Kinemacolor pictures, showing a number of Asiatic wild birds had been exhibited, Dr. E. C. Levy, Chief Health Officer of the city, walked down the aisle, and, turning to the interested audience, spoke very briefly on the ever-present menace of the fly, explaining that the common, or domestic, fly, has become recognized as no much more deadly and dangerous to the human race than all the wild animals, snakes and other venomous creatures of the earth that united action against its increase or even extinction cannot be described as a fad, but must be looked upon as a real and beneficial crusade against an equally real and infinitely more active enemy of the human race.

Dr. Levy further explained that it is the simplest and most common character of fly that is the most active disseminator of disease, namely, the fly spawned and hatched chiefly in products of excrement, and living, propagating and increasing in dirt and uncleanness of every description. At the request of Dr. Levy, the famous motion picture "The Fly Pest," was then thrown upon the screen, while Dr. Levy supplied an entertaining and instructive running commentary upon each picture as it showed a phase of the fly's growth from eggs to larva (maggot), to pupa, and then to full grown fly—only eight days being required for the process. He exhibited one of the innumerable features of its germ-bearing activities.

The pictures are enormously magnified, so that the disease-carrying construction of the feet and even of the tongue is readily discernible in the little insect. The tongue of the house fly appears, in these remarkable pictures, to be somewhat like the ordinary oval shaped egg-beater, with its mesh of wire, forming an ideal vehicle for the collection and dissemination of hideous bacilli, while the feet, besides a slighter but closer meshing, possess also converging horns, or pincers, capable of transporting and depositing innumerable death-dealing germs.

Many of the pictures are almost repulsive in their realistic exposition of detail, showing, as they do, not only the transmission of the fly's field of operation from tainted meat to lumps of sugar, presently to be put into cups of coffee or tea, but even an immediate flitting from a receptacle probably, or at least possibly, filled with the bacilli of tuberculosis, to the rubber mouth-piece of a baby's bottle.

Indeed, so realistic are they that the

more viewing of them is highly instructive, and should prove of great value in the campaign of educating the public to the wisdom, the necessity of eradicating this dangerous enemy to health and humanity.

Owing to the storm which burst over the city at the hour set for the performance, the attendance was not as large as it otherwise would have been, and, therefore, the management of the Bijou, at the request of The Times-Dispatch and of the health authorities, will present another free performance on Saturday at 12 o'clock noon, at which time Dr. Levy will again address the audience briefly on this vital subject. Besides the fly pictures, the management will also display the Kinemacolor motion pictures of the Asiatic fowl and of several of the most famous of the English race meetings, the latter of which were shown at the conclusion of the performance yesterday afternoon. All State and city officials, public and private school teachers, physicians and clergymen are cordially invited to attend this interesting and instructive entertainment.

Noel—Stanton.
Amherst, Va., June 6.—Yesterday morning at 11 o'clock, in Emmanuel Baptist Church, near Sandston, in this county, Miss Cora Bethel Staton, daughter of Mr. and Mrs. P. W. Staton, became the bride of Arthur Lloyd Noel, of Farmville. The officiating minister was Rev. J. W. Owen, now of Raleigh, N. C. The bride, during the past winter, taught in the public schools of the county. The bridegroom is a prosperous business man of Farmville, in which town they will make their future home.

Home Treatment for Tuberculosis

Consumptive patients need no longer dread either the fact that formerly overlooked all sufferers from lung trouble, or costly and inconvenient journey far from home to other climates or to some expensive sanatorium. A physician pronouncing my case consumptive, and I was ordered to a consumptive hospital. My nephew would not allow me to go until I had tried Eckman's Alterative. Before I had taken the medicine three weeks I commenced getting well. I am in excellent health now and have been completely cured for ten years. I strongly recommend it.

(Signed) (MRS.) MARY WASSON.
Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Trouble, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Owens & Minor, drug Co., and other leading druggists. Ask for Eckman's Alterative and recoveries and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

NO BATTLE COMES AT FIRST MEETING

(Continued from First Page)

Charles Cavender, of Colorado. Representative Henry Bartholdt, for Charles Nagel, of Missouri. Dr. O. M. Landstrum, for T. A. Martin, West Virginia. Dennis Flynn, for C. M. Cade, Oklahoma.

Senators Sanders, Tennessee, for S. A. Perkins, Washington. A. M. Stevenson, Colorado, for N. B. Scott, West Virginia. J. C. O'Laughlin, Chicago, for Sidney Berber, District of Columbia. Senator Dixon, Colonel Roosevelt's manager, had the proxy of T. L. Flanagan, of Nevada, but declined to use it because of his partisan interest in the committee's activity. He turned this proxy over to Representative L. N. Littauer, a Roosevelt delegate from New York, but the committee declined to admit Littauer without a direct proxy from Mr. Flanagan.

A statement issued to-night by Congressman William B. McKinley, head of the Taft forces, says: "Of the fifty-three States and Territories and Districts represented in the Republican National Convention this year, President Taft has the entire delegations or the majority from twenty States in the North and West, ten from the South and five from the District of Columbia and Territories, or a total of thirty-five. Mr. Roosevelt has the delegations or the majority of them from fourteen States in the North and West and two from the South, or a total of sixteen. Senator Robert M. La Follette has two—Wisconsin and North Dakota."

Furthermore, President Taft has representation on the delegation from seven of the States which Mr. Roosevelt has carried in this contest, increasing the number of political units represented in his total of delegates to forty-two out of the fifty-three in the convention. In the face of this analysis of the delegation by States, as they have been elected to the Chicago convention, the utter absurdity of the claims of Mr. Roosevelt and his managers that they control the convention is apparent. They will have in fact, all the difficulty possible in managing the so-called Roosevelt "sure" delegates, who already realize that they are being led into a ditch, if not into an actual bait by a lost cause.

United States Senator Dixon, when told of the committee's action in voting for sessions open to the press, stated that the decision was a victory in the committee for Colonel Roosevelt. In this connection he said:

"This is the first time we ever have had any publicity of these matters at all, and it is the result of the demand made by the friends of Colonel Roosevelt."

The Question

whether the City of Richmond should grant to any man or any corporation a franchise permitting the establishment of a competitive electric light and power plant demands the most thoughtful consideration—really careful deliberation—from every public-spirited citizen, for it is a question that concerns directly and to an extent that is not generally realized the welfare of the whole community.

It is quite as important to YOU as a citizen of Richmond as it is to the Virginia Railway and Power Company that this question should be settled RIGHT. It is vastly more important that THIS COMMUNITY SHOULD NOT BE EXPLOITED, than that the Richmond and Henrico Railway Company should be helped out of a hole.

The first and most important consideration for YOU is not the interest of the Virginia Railway and Power Company, or the interest of the Richmond and Henrico Railway Company, but the best interests of the public—THE GREATEST PERMANENT GOOD FOR THE GREATEST POSSIBLE NUMBER OF THE PEOPLE OF THIS CITY. And the first essential therefore is to know and understand enough of the history of competition in electric service to be REASONABLY SURE whether the public can and will be served better and at a lower price by one electric light and power plant, or by two such plants.

That history, though it extends back only about thirty years in the electric lighting field, covers the experience of thousands of cities and towns in America and Europe; and all that experience only PROVES the NATURAL LAW that ONE ELECTRIC LIGHT AND POWER SYSTEM, JUST AS IT COSTS THE COMMUNITY LESS TO BUILD AND MAINTAIN AND OPERATE THAN TWO SUCH SYSTEMS, INEVITABLY MEANS THE BEST SERVICE AND A MINIMUM COST TO THE CONSUMER.

All the specialists who have devoted years to the study and investigation of this subject, and all the Public Service Commissions ever created to protect the public against the corporations agree unanimously that the PUBLIC ALWAYS PAYS AN EXTORTIONATE PRICE FOR PERMITTING COMPETITION IN ELECTRIC LIGHT AND POWER SERVICE, AND ITS EXPLOITER GETS THE MONEY.

The financial hole in which the Richmond and Henrico Company finds itself was dug by the Richmond and Henrico Company and no other; and the City of Richmond is under no conceivable obligation to help it out of that hole. Look at the FACTS:

About ten years ago a franchise was obtained from this City for a street railway line only—an electric light and power franchise was not even asked for or considered. The memory was fresh then of Richmond's own experience of competition in this particular public utility. That street railway franchise was held idle for eight years before a foot of track was put down. Having failed to turn the City's GIFT into cash in those eight years, the Richmond and Henrico Company did build a comparatively small street railway line.

It now finds that that line does not serve enough people to make its business profitable. The Richmond and Henrico Company complains that it is losing money. So it asks the City to GIVE it an electric light and power franchise, which manifestly WOULD ENHANCE THE NUISANCE VALUE OF ITS PROPERTY AND ENABLE IT TO SELL OUT AT A HIGHER PRICE.

Think on these things—and read to-morrow's Service Talk.
Virginia Railway and Power Company,
William Northrop, President.

Service Talk No. 19
June 7, 1912

News of South Richmond

South Richmond Bureau,
The Times-Dispatch,
1009 Hull Street,
Phone Madison 155.

Comparing favorably with that of the Powhatan School, the exhibit of the manual training department of the Maury School yesterday was visited by a large crowd of people, many of them being white friends and patrons of the school.

The colored children, under Prof. J. A. Staples, who also instructed the Powhatan scholars, have made remarkable progress in this line of work, which was taken up only since annexation. The children have shown a marked aptitude and have put forth a more than creditable display. Among the exhibits are samples of cabinet-making, drawings, skilfully and well done. The school will be open this morning from 9 to 12 o'clock, and this afternoon from 2 to 4 o'clock. Every one is welcome.

Freight at a passing car yesterday morning at 6:30 o'clock, caused a horse belonging to the Belle View Dairy Farm to run away. The milk cart was overturned, imprisoning the driver, Mr. Penning, and dragging him for nearly 100 yards before landing the whole outfit in a roadside ditch along Semmes Avenue, Woodland Heights.

Broken bottles, split milk and a plover-up road marked the course of the runaway. Mr. Penning lost considerable skin and blood, which was mixed up in the debris. He had his mouth badly cut, and was bruised and shaken up. This is the second runaway he and the horse have been in during the past week.

Big Property Sale.
The rapid rise in Southside realty values was evidenced yesterday when a piece of property bought twelve years ago at public auction for \$2,000 was sold for a price somewhere near the \$30,000 mark. The property, a brick store, known as 1102 Hull Street, with a frontage of twenty-four feet and a depth of 137, was purchased by August Simonetti from M. M. Strauss. The price mentioned was \$10 and the assumption of certain debts of trust, aggregating \$1,450.

Joseph T. Ankera yesterday transferred to Martha E. Parsons, a house and lot, known as 412 Semmes Street, with a frontage of fifty feet, for a consideration of \$1,450.

Condemnation Committee.
A condemnation committee, composed of George W. Reams, B. P. Aiden, A. P. Holt, E. B. Dunford and A. J. Daffron, was appointed by Judge E. H. Wells, of the Hustings Court, Panel 2, to ascertain a just compensation for a strip of property above the Atlantic Coast Line Railroad tracks, which is needed to widen Hull Street at that point. Charles T. Jones is the principal owner mentioned in the order.

The Chesterfield Board of Supervisors at a special meeting at Chesterfield Court-house yesterday decided to allow Woodland Heights the sum of \$25 a month towards the cost of putting in arc lights at the crossings on Semmes Avenue. The village, which was the head, asked for \$60 a year for lights, agreeing to dispense with a police officer if the request was granted. The supervisors were not favorably inclined toward this proposition and compromised, promising, however, to take the matter up next fall.

Attorney Melville and Cox, of the Atlantic Coast Line Railroad, appeared before the board and announced that the county's demands for eight of the ten crossings over the county roads along the new Belt Line were satisfactory. The other crossings will be discussed at the next meeting.

Cripple Given Freedom.
Will Flynn, a cripple, who was arrested Wednesday night and confined in the Third Police Station, was yesterday dismissed by Justice H. A. Maurice in the Police Court, Panel 2, when it was proved that he was not begging, as charged, but was endeavoring to work his way to Norfolk, his home, by selling lead pencils. Overlooked at his dismissal the man handed the justice a pencil as a token of his appreciation. The man, who had been out on his crutch with a smile for all.

In Police Court.
Tempy and Ollie Brooks, colored girls, charged with cursing and abusing a neighbor, were each required to pay \$2.50 and costs by Justice Maurice yesterday in the Police Court, Panel 2.

William Miles, drunk and unable to take care of himself, was sent to jail for ten days in default of a fine of \$2.50 and costs.

The funeral of W. T. Reams was held yesterday afternoon at 4:30 o'clock from the Central Methodist Church. The Rev. Henry C. Pfeiffer, pastor of the church, officiated. The burial was in Maury Cemetery. The pall-bearers were selected from

Brotherhood of Locomotive Engineers, of which Mr. Reams was the district representative, and the Manchester Lodge, No. 848, M. P. O. E. Many handsome floral offerings from friends and organizations of which he was a member banded the altar of the church.

Burial of Infant.
The funeral of Linda Belle, the nine-month-old daughter of Mr. and Mrs. W. G. Turner, of 218 Perry Street, will be held at 2 o'clock this afternoon at the family burying-ground near Winterpock.

Southside Song Writer.
Mrs. J. B. Stansfield, of South Richmond, is the composer of both the words and the music of a ballad, "Fishing on the Banks of the James in Old Virginia," which is being sung with great success at a local theatre this week. The song has been well taken by the audience, last night being encored three times.

Johnson—Brady.
Elizabeth City, N. C., June 6.—Benjamin I. Johnson and Miss Harriet A. Brady, both prominent young people of Newport News, Va., arrived here yesterday afternoon on the Norfolk Southern express and were married at the home of Register of Deeds and Mrs. J. W. Munden, the ceremony being performed by Justice Munden. The couple returned later in the afternoon to Virginia.
